

Project- & Program Manager

Across industries and around the globe ACTIVATOR GROUP works with exceptional people and leading companies. Our business is growing and there's a high demand for our services and advice in the areas of Project and Program Management.

ACTIVATOR GROUP are seeking candidates with relevant professional experience to create value for our clients. You need to be a professional, but the most important for us and our clients is a positive attitude, interpersonal skills, and can-do mindset.

ACTIVATOR GROUP

Activator Group is an ambitious consulting company specialized in creating change and value for companies. Our core services are Project Management, Business- and Organizational Development, Management Training and Search & Selection.

We are a trusted partner to business delivering high quality and knowledge from our team of Program Managers, Project Managers and PLM and ERP specialists.

THE JOB

We're searching for skilled consultants within the following fields:

- Junior Consultants within Business and IT
- Project Managers within Business and IT (experienced with PLM and ERP)
- Senior Project Managers / Program Managers with a relevant experience within Business Projects as well as IT Projects

ABOUT YOU

A prerequisite for the positions is that you're fluent in English and a strong communicator. As a person you work independently and know how to create value. We seek candidates with relevant professional experience, but a positive attitude and can-do mindset to challenges is the most important for us as well as our clients.

Terms of employment depend on the job and circumstances.

- A fixed contract or freelance (what might suit you best)

APPLICATION
