

SAP VC Consultants

For our costumer located in Central Sweden (approximately 100 km from Stockholm), are we searching for SAP consultants with great experience in VC functional services

Our costumer is a worldwide company who operates in more than 35 countries. They are currently upgrading to SAP S/4 HANA and is therefore in the market for skilled and experienced people to help with implementation, rollout and support for projects regarding the upgrade to SAP S/4 HANA.

THE RIGHT CANDIDATE

- have **SAP VC hands on experience in rollouts and support projects**
- have a good understanding of VC technical and business scenarios, functionality, and business processes
- is familiar with integration of SAP MM, PM, FICO, PS and SD etc.
- have experience in integrating configurations with SAP systems.
- have handled minimum 1 End to End Implementation
- possess the mandatory skill; Integration with PS module
- have 8 – 10 years of experience
- will have an advantage if experience or knowledge about energy industry, handling projects in Agile methodology and/or experience in S/4 HANA is possessed

EDUCATION

We assume that you have a master degree in IT, to meet the requests above. We value skills and experience higher than 'the right' education.

ABOUT THE JOB

The job is on location. We can help you with accommodation and VISA to work in Sweden if needed.

Currently the job is sat for 6 months, but an extend may be possible. Starting date is as soon as possible.

WE OFFER

An opportunity to be part of a complex project where you will be a high valued employee.

APPLICATION

Does the description sound like a match for you? Please send your resumé info@activatorgroup.com. If you have any questions, please don't hesitate to contact Olivia Søndberg, the recruiter on this position at os@activatorgroup.com or on LinkedIn www.linkedin.com/in/oliviasondberg/

We will go through the applications as they come in, so don't hold back.

All enquiries will be confidential.
