

PROJECT LEAD

ABOUT THE JOB

You are an experienced project lead with a flair for working in larger programs involving many different stakeholders requiring overview and communication skills? You have experience in planning and leading digital projects? You have the drive and insight to manage projects and liaise with many stakeholders operating in different areas?

Then we have an ideal opportunity for you, where you will become part of the program leadership team for Activator Group International. You will be responsible for leading complex activities in IT programs and projects

Activator Group International

This project manager role will be reporting to and collaborating closely with the Program Owner and program leadership team in Activator Group International. The assignment covers all activities related to project management. We expect you to have been leading other successful IT Projects and larger technical programs.

Responsibilities

Your primary responsibility will be to lead activities in the strategic program with all key deliverables incl. budget controlling, scope alignment, activity planning with Product Owners and vendors, communication, change management etc.

Overall, Your Responsibilities Will Include

- Activity planning and resource estimation
- Communication with stakeholders across the organization and with external partners
- Oversee any external program resources
- Quality assurance
- Change management
- Financial management of the project
- Ensure project meets defined objectives

Qualifications

To be considered for this position, you have experience from another IT program /Projects , you most likely hold a degree in Business Administration, IT or relevant. You must also have strong demonstrable project Leadership skills , a formal certification in PMP/Prince 2 is not a must – most important – you have demonstrated execution skills /results.

Furthermore, We Expect That You Have/are

- Fluent in English verbally and written
- Solid communication/stakeholder leadership skills
- Demonstrated that you are capable of building a motivated project team
- Planning and securing delivery of many parallel activities at the agreed quality and in due time

Competencies On a Personal Level, We Envision That You Have/are

- Persistent and patient with the ability to prioritize - also in a time-sensitive situation
- Structured, results oriented and robust
- An open-minded and curious personality with good communication skills combined with a focused and structured approach to getting the job done
- Good cooperative and communication skills in a global organization with personal, professional and cultural diversity
- The ability to take ownership and effectively engage in continuous improvements within a broader perspective
- A team-oriented person who shows a reliable approach to the tasks at hand and want to contribute to the common achievements of the team

What We Offer

You will be a part of a highly motivated and innovative team defined by creating business value. We offer an informal and agile workplace with a high level of freedom in defining the way forward. We expect a lot of our team members when it comes to taking responsibility and ownership of tasks and deadlines, but we stand shoulder by shoulder when celebrating our achievements and mitigating our failures.

Additional Information

Your primary work location can be in our office in Odense or hybrid. **Most importantly we expect you to be able to travel every other week for our customer in Northern Europe (3-4 days at our customers location).**
